

# HUMAN RIGHTS

across Europe

#1 - Newsletter "Human Rights across Europe" – 2011 – 2013

## Dear Readers!

The kick-off meeting of the "Human Rights across Europe" Learning partnership was held in Lingen from 4<sup>th</sup> – 5<sup>th</sup> January 2012. It was attended by the representatives of the following partner countries: Turkey (coordinating organisation), Spain, Poland, Finland and Germany.

The responsible person of each organisation presented not only their organisations, but also gave details about their countries, regions and towns/cities.

The coordinator, Mustafa YALÇIN reminded the partners of what we have promised in our application forms to do during the course of our project.

This was a good way of starting the meeting, and all the partners tried to develop and improve the objectives and outcomes according to their skills and capabilities.

## The main outcomes we wish to tackle with this project are:

- Contributing to show respect for and understand human right and democracy
  - Encouraging tolerance and respect for other people and cultures.
  - Sharing experiences and knowledge of human rights education.
  - Creating a web platform (e learning portal) to train the general society on human rights training.
  - Comparing different pedagogical methods used in the training on human rights training.

## After the meeting in Lingen – before the meeting in Lodz

### Çayıralan Halk Eğitimi Merkezi, Turkey

During the meeting in Lingen, we introduced ourselves, our organisation and our town and region. We organized a meeting by the purpose of transferring the knowledge that we had during the Lingen meeting to our learners and staff. Additionally we sent a local newsletter to local media. We made necessary preparations for a human rights seminar to our learners.

## VHS Lingen gGmbH, Germany

The group responsible for the creation of the Newsletter #1

We have provided a course where, on the one hand, we encourage our participants to learn English (CEFR A2) in order to be able to speak with learners and participants during the project meetings, and on the other hand discuss and understand human rights topics.

Furthermore, we developed a questionnaire targeted at all our partner's learners with questions regarding the general knowledge about and attitude towards human rights.

We sent the questionnaires to the teachers of our partner's institutions who handed them out to their learners and teachers.

We will collect the completed questionnaires during the project meeting in Lodz, which will take place from 1<sup>st</sup> – 4<sup>th</sup> July 2012, and evaluate them.

Another task set in the Lingen meeting was to create a project logo to be presented during the Lodz meeting. So we started collecting ideas and what might express "human rights" in a logo. In the end we created the two logos:

Logo no 1:

Logo no 2:

### **Activities developed by FDO for the first meeting**

During the months of September, October and November 2011 we carried out some working meetings in which we analyzed the project, underlining contents, objectives, activities ....

We also decided who would have been in charge as coordinator in the centre, who would have been the other schools with whom we would have collaborated or realized activities, included the Web information, working methodology and communication between the partners ...

In December we prepared our English presentation as well as all the activities linked with the topic of the project for the meeting in Germany.
